

In only one year,
heroin deaths of 18-25 year olds
in New Jersey rose 24%*

They didn't all start at 18...
(and they didn't all start with heroin)

Are you talking to your kids yet?

A quick look at any newspaper will tell you that New Jersey, and particularly Monmouth County, are in the middle of a heroin epidemic. Statistics tell us that in only one year heroin deaths among 18-25 year olds in New Jersey rose 24%. They didn't all start at 18 *and they didn't all start with heroin.*

As a parent, teacher, or community leader, the three most dangerous words you can say are, "not my kid." Please join us to learn what you can do to help the young people in your life avoid becoming a part of these sad statistics.
