7 September 2017

Dear Parents and Guardians,

I hope you had a wonderful summer and are ready for an even more wonderful school year! I am so thrilled to have your student this school year for Geometry.

While your student will be incorporating their knowledge from prior courses, your child will also be introduced to a lot of new content this school year such as rigid motions, similarity transformations, and properties of quadrilaterals and 3-dimensional figures. In addition, your student will be utilizing technology as a resource to take part in partner activities, think critically, and apply their skills to discover different concepts. I encourage you and your child to practice/study together at home, but please know that I am always available for extra help. I am excited for this year, and I sure hope that your student is too!

This is a friendly reminder, that your student will be MAP testing on Monday, September 11th and Tuesday, September 12th. If there are any changes, I will inform you and your student prior to this date.

Lastly, I am a firm believer in strong communication with families and the community. Please feel free to contact me via email, dlacugna@avonschool.com, at any time if you have questions, comments, concerns, etc.

I am looking forward to seeing you at Back to School Night on Thursday, September 21st!

Sincerely,

Ms. Danielle LaCugna
Mathematics Teacher
