(Quiz: Topics 5.1.-5.3)

Thursday, 1/23:
7th Grade Math
(Quiz: 6.1 - 6.3)

Friday, 1/24:
Algebra 1
(Quiz: Topic 5.8)

There is no school on Monday, 1/20 for Martin Luther King Jr. Day

This Week in Math:

6th Grade math students participated in a collaborative activity with Ms. Keane and the 4th grade class! As a way to learn about preys, predators, and wolf habits for hunting, the students all engaged in an activity of tag where they had to "eat" for survival. The students did a great job working with the 4th grade students, and two of our very own were the record keepers. Next week, as a follow-up, the 6th grade class will discuss the chart and the data to discuss how it is useful for scientists, statisticians, and populations. Great job 6th graders, keep up the great work!

7th Grade Math students began their unit on writing and solving equations. The students did an excellent job applying their knowledge to real world application problems and were able to create accurate bar diagrams as a way to model the information. The students will continue to solve equations in the upcoming week, with more steps and equations that are more challenging. Great job 7th grade math students, keep up the great work!
