

Mrs. Lazarchick's Newsletter

Week of January 21st:

(Please visit the Assessments Calendar tab on my class website as well as your student's Google Calendar as changes may occur)

> Monday, 1/21/19 *No School*

Tuesday, 1/22/19 Geometry (Special Quadrilaterals Quiz)

> Thursday, 1/24/19 6th Grade Math (Notebook Check Quiz) 7th Grade Math (Topic 6 Assessment)

This is a friendly reminder that Marking Period 2 ends on Friday, 1/25/19.

Contact Information: E-mail: dlazarchick@avonschool.com Phone: 732-775-4328 ext. 222 This week in 7th grade math the students did an excellent job applying their knowledge of solving equations to now solving inequalities. The students accessed their prior knowledge of graphing inequalities and remembered the important information about open and closed circles as well as the direction that the graph should be shaded. Keep working hard 7th grade; you are going a great job!

This week in Homeroom the students worked on building relationships with their classmates by interviewing one another! Each student was assigned a partner and had to ask their partner questions such as, "What is your full name, birthday, and place of birth?", "Do you think school is important and why?", and "If you could change one thing about yourself what would it be?" The students spent several days doing this and finally on Friday had the opportunity to share out information about their partner that they may not have known prior to the interview. Mr. Trapani and I were very pleased to see how interested and engaged the students were to learn about their peers. In addition, the students participated in a full middle school morning meeting, hosted by the 7th grade class, where they learned information about their classmates and friends that were similar to them as well as different. Great job 6th grade!
