## Next Week's Happenings...

### Week of January 29th:

(Please visit the Assessments Calendar tab on my class website as changes may occur)

**Tuesday, 1/30:**

6<sup>th</sup> Grade

(4.1 - 4.4 Quiz)

**Friday, 2/2:**

Algebra 1

(Systems Test)

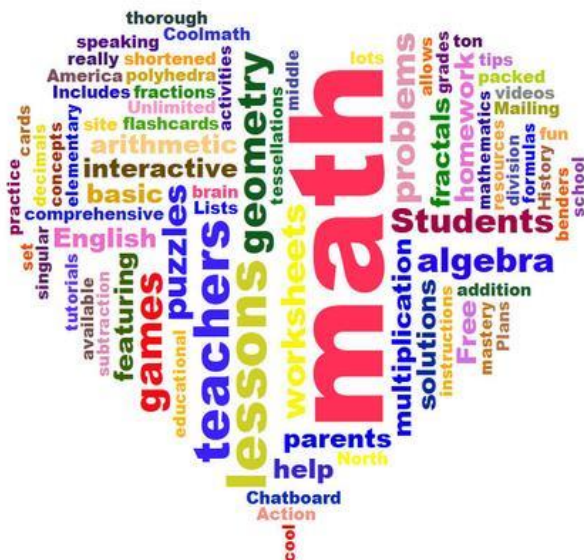

7<sup>th</sup> Grade

(9.1-9.4 Quiz)

**\*\*Marking period 3 begins Monday,  
January 29<sup>th</sup>\*\***

**This week in Geometry:** The students in geometry worked hard today to inscribe a circle within a triangle. The students used their knowledge of constructions from the beginning of the school year to create angle bisectors and perpendicular lines. The construction was a tedious task as the students realized that human error can hinder accuracy. With that being said, they were able to discover the theorem associated with the construction. The students will continue to practice next week and learn how to circumscribe a circle around a triangle. Great job Geometry!

**This week in Algebra 1:** The students worked together to help Mrs. Rust and the National Junior Honor Society count the number of cans and boxes that were collected for the "Super bowl for Caring" food drive. In addition, the students calculated the number of ounces among all 133 cans and 24 boxes and further converted the ounces to pounds. Please see Mrs. Rust's tweet and Dojo for further details and images. Great job Algebra 1, keep working hard!
