## Week of October 29<sup>th</sup>:

(Please visit the Assessments Calendar tab on my class website as well as your student's Google Calendar as changes may occur)

Tuesday, 10/30/18  
8<sup>th</sup> Grade Math  
(Assessment - solving equations)

Friday, 11/2/18  
Geometry  
(Topic 4 Assessment)  
7<sup>th</sup> Grade Math  
(Topic 3 Assessment)  
6<sup>th</sup> Grade Math  
(Topic 2 Assessment)

This week in 6<sup>th</sup> grade math the students participated in another 3-Act Model activity. The students have been learning about integers, rational numbers, ordering and comparing numbers, plotting numbers on a number line, and absolute value. In the 3-Act Model, the students watched a video based on two students throwing a Frisbee in opposite directions. From this, the students came up with questions which led them to the main question that they would eventually have to solve. The students discussed possible answers and used information from the video to back up their arguments. The students then received more information to help guide them in finding the correct solution. Finally, the students were given the answer and discussed their accuracy, strategies for finding the correct answer, and skills that were needed to help them with the activity. Great job 6<sup>th</sup> grade, keep working hard!
