This Week in Math:

8th Grade Math students had the opportunity to be "detectives" in a CSI Math activity. The students were required to answer questions that related to the material that was on their Topic 1 Assessment this week. In answering the questions correctly, the students were able to determine who the suspect of the crime was. Great job 8th grade math students, keep up the great work!

7th Grade Math & 6th Grade Math students participated in Jeopardy Review games to prepare for their Topic 1 Assessments. The students had the opportunity to work in groups of 3-4, answer questions based on the content, and engage in a "Final Jeopardy" question. All of the students did a great job collaborating with their teammates, reviewing the math topics, and asking questions to ensure their knowledge of the material. Great job 6th & 7th grade math students, keep working hard!
