Week of February 26th:

(Please visit the Assessments Calendar tab on my class website as changes may occur)

Monday, 2/26:
6th Grade
(Inequalities Quiz)

Tuesday, 2/27:
Algebra
(Chapter 7 Test)

Wednesday, 2/28:
6th Grade
(Expressions, Equations,
Inequalities Test)

Thursday, 3/1:
7th Grade
(Chapter 9 Test)

Friday, 2/23:
Geometry
(Chapter 9 Quiz)

This week in Geometry: The Geometry students have been learning about the different segments in a triangle. They have not only learned the definitions, but have also performed constructions, applied the theorems, and utilized their Algebra skills. The students reviewed in class, but rather than doing it in the classroom, the students productively studied outside in the beautiful, warm weather on Wednesday. It was impressive to see how the warm weather heightened the conversation and kept the students focused. Great job Geometry students; keep working hard!

This week in 6th Grade Math: The 6th grade students have been working very hard learning about the 5 different inequality symbols. On Thursday, the students participated in a fun scavenger hunt review activity. In addition to reviewing their skills, the students learned about infamous historical figures in honor of Black History Month. Great job 6th grade, keep up the good work and don't forget to study for your inequalities quiz on Monday!
