

Ms. LaCugna's Newsletter

Week of March 19th:

(Please visit the Assessments Calendar tab on my class website as changes may occur)

Monday, 3/19:

Algebra
(Factoring Quiz)
7th Grade
(Ch. 10 Quiz - Algebraic
Expressions)

Tuesday, 3/20:

Happy Spring

Wednesday, 3/21:

Geometry (Chapters 9&10 Test)

This week in Algebra 1: The Algebra students have been working very hard (as always) to factor quadratic trinomials. They began earlier in the week with factoring a GCF and by grouping, then factoring with a leading coefficient of 1, and later with a leading coefficient greater than 1 as well as special cases. Factoring is a critical component in Algebra as it is used consistently in all future mathematics classes as well. The Algebra students will be assessed on their factoring skills with a quiz on Monday, 3/19. Great job, keep up the great work!

This week in 6th Grade Math:

The students learned about the relationships between an equation, a table of values, and a graph. The students used real world application problems to apply their knowledge.

Great job 6th grade, keep working hard!
