## Week of April 9th:

(Please visit the Assessments Calendar tab on my class website as changes may occur)

**Thursday, 4/12:**

7<sup>th</sup> Grade

(Solving Equations Quiz)

6<sup>th</sup> Grade

(Rates & Ratios Quiz)

**Friday, 4/13:**

Algebra 1

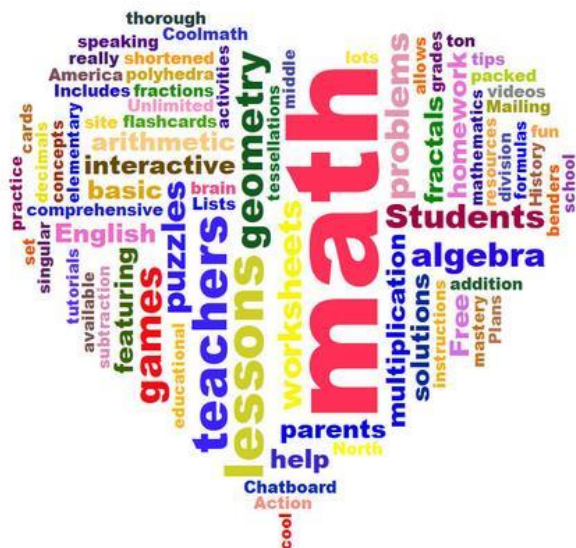

(Graphing Quadratics Quiz)

**\*\*Have a relaxing break and a wonderful holiday!\*\***

**\*\*See you in April!\*\***

## This week in 7<sup>th</sup> Grade Math:

The students participated in a solving 1-step equations "Connect 4" activity. The students were assigned to a partner and played in a friendly competition where they practiced their solving 1-step equations skills. The students completed their work on paper and then entered their answer onto the online applet where they then had the opportunity to potentially connect four dots - similar to the popular board game. The next day, the students continued to practice their skills while engaged in a stations activity. The students worked in groups of 4 or 6 and circulated among 3 different stations: solving 1-step equations, real-world applications, and an introduction to writing 2-step equations. The students were incredibly hard, worked very well in their small groups, and all participated in the mathematical discussion. Great job 7<sup>th</sup> grade, keep up the great work!
