

Ms. LaCugna's Newsletter

Week of June 4th:

(Please visit the Assessments Calendar tab on my class website as changes may occur)

Monday, 6/4:

All Students in 6th, 7th, Algebra 1 & Geometry will be taking their MAP Test

Wednesday, 6/6:

6th Grade

(Quiz: Appropriate Measures)

7th Grade

(Quiz: Chapter 16)

Thursday, 6/7:

Geometry

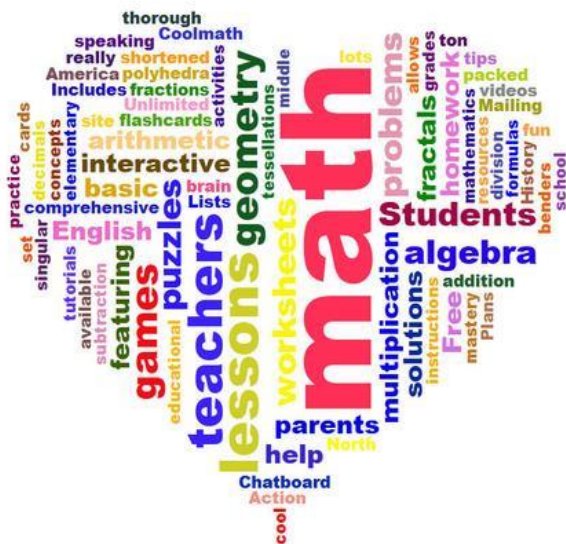

(Area & SA Quiz)

Field Day - Friday, 6/8

Field Day Rain Day - Thursday, 6/7

This week in 6th Grade Math:

The students in 6th grade completed a 3-ACT Model activity after learning new content about mean, median, histograms, and dot plots. The students watched a video about a singing competition and came up with a main question to answer based on the video; the main question was "who is the winner?" The students made predictions and were then given additional information about the contestant's scores to determine if their predictions were accurate. The students used dot plots, histograms, mean, and median to determine who the winner of the competition was. The 6th grade students not only practiced their mathematical skills of the most recent concept, but they also discussed how mathematics is related to competitions, how mean and median are taken into consideration when using scores, and effective strategies for different math related scenarios. Great job 6th grade,
