

Mrs. Lazarchick's Newsletter

Week of June 17th:

(Please visit the Assessments Calendar tab on my class website as well as your student's Google Calendar as changes may occur)

Important Dates:

8th Grade Graduation - Wednesday, 6/19

Last Day of School - Thursday, 6/20

Have a wonderful, relaxing summer, and see you in September!!

This week in 7th grade the students completed a life size project of a "person" using 8 different geometric shapes including squares, rectangles, rhombuses, parallelograms, semicircles, etc. The students had to not only create the figure, but also find the area of each individual shape, and then find the area of the entire "person". The concept of this project was to find the area of composite figures - finding area of each shape and then adding them all together. The students worked with partners, and then presented their "person" to the class. Great job 7th grade, way to end the school year strong!

I would like to take this opportunity to thank each and every one of you for another wonderful school year! It has been an absolute pleasure teaching your student this year, and I am excited to teach them again next year! To the 8th grade class, I wish you the best of luck as you enter high school, and please know that I am always here if you need anything! Thank you for making the 3 last year's so memorable for me, and I hope that it was just as memorable for you! I know that you are all going to do great!
