Week of September 23:

(Please visit the Assessments Calendar tab on my class website as well as your student's Google Calendar as changes may occur)

Tuesday, 9/24:
7th Grade Math
(Quiz: Topics 1.1 -1.5)

Wednesday, 9/25:
Algebra 1
(Topics 2.3 - 2.5)
6th Grade Math
(Quiz: Topics 1.1 - 1.4)

Thursday, 9/26:
8th Grade Math
(Quiz: Topics 1.6, 1.7, 1.9)

6th Grade Math students reviewed their knowledge of operations with decimals, including addition, subtraction, and multiplication. The students had the opportunity to review the operations as a whole class and then independently. We also went over when the decimal has to be lined up and when it does not. The students then spent time engaging in an activity called "Out to lunch" where they had the used a menu to not only calculate the total bill, but also include tax and tip. The students worked in partners to complete this activity and did a great job using their operations with decimals. Excellent job 6th grade students keep working hard!

8th Grade Math students spent the beginning of the week reviewing their knowledge of the Real Number System. For the remainder of the week, the students learned new content that related to these types of numbers such as approximating non-perfect squares and solving equations using square roots and cube roots. Great job 8th grade students, keep up the great work!
