## A NOTE FROM YOUR TEACHER

We had a strong first week back after Spring Break. Students in 4th worked hard to finish their Spanish projects for Mrs. L, to develop their opinion writing skills, and to persevere during challenges in science!

**From Mrs. MacDonald:** please review [this notice](#) regarding math programming for next year.

## A Glance at Next Week:

**Wordly Wise:** Lesson 13 - continued next week

**Math:** Moving on to Topic 11: Line Plots

**SS:** learn about the Civil War, particular NJ's role in it  
**Science:** We'll continue our Energizing Everything unit!

**Reading:** Holocaust unit and historical fiction studies

**Writing:** Opinion and persuasive writing unit!

## This Week's Highlights:

We began our new science unit this week, called "Energizing Everything!" Students learned that even rubber bands can store energy and power things like toy cars and planes. They also took on the role of amusement park ride designer and tested out the: "Twist-O-Matic"

**Date:**

**Friday,**

**April 16, 2021**
