

Grades PK-2 Distance Based Learning Art Appreciation: Early Finisher Activities!

Color Wheel or Rainbow Challenge!

Directions:

- Now that you have created color wheel drawings, it's time to take the Color Wheel/ Rainbow At Home Challenge! First, watch the ROYGBIV video explaining colors in the rainbow! (It is one of my favorite songs). Next, look for items around your home that match up with the colors on the Color Wheel. Create a found-object color wheel by placing colored objects together to make a circular shape, **OR** a found object Rainbow by placing colored objects together to form a Rainbow arched shape! You might be surprised at how many colored objects are in your home! (see my example for reference).
