Budget Basics: Purpose

The school budget is developed with the goal of maintaining and refining the integrity of the instructional program while providing a comprehensive and caring educational environment that will offer opportunities to develop the potential of every child

This includes resources for general education as well as required special education students age 3 through 21, any out of district K-12 placements, public high school tuition, and transportation to both public and private schools as required by law

Even though there are about 133 students in the building, the 2021-2022 Avon School Budget must support the thorough and efficient education of approximately 174 students from Preschool age through Grade 12

Budget Basics: **Timeline**

Late Fall - data collection, program needs assessments, historical spending analysis

Early Winter - begin to formalize fixed and growth spending estimates

January - other LEA tuition estimates begin, staff spending plan requests, supply account analysis estimates

February - begin to prioritize needs, rough tentative budget outline

Late February - Governor's Budget Address (state aid figures within 48 hours)

Early March - Board Committee review of proposed tentative budget

Mid March - local approval, submission of Tentative Budget to County Office

April - Public Hearing and Board ratification of Final Budget

After the public meeting tonight, the tentative budget will become the District Budget and will operate to serve the needs of the district for the 2021-2022 school year
