# Budget Basics: Purpose

The school budget is developed with the goal of maintaining and refining the integrity of the instructional program while providing a comprehensive and caring educational environment that will offer opportunities to develop the potential of every child

This includes resources for general education as well as required special education students age 3 through 21, any out of district K-12 placements, public high school tuition, and transportation to both public and private schools as required by law

Even though there are about 120 students in the building, the 2023-2024 Avon School Budget must support the thorough and efficient education of approximately 145 students from Preschool age through Grade 12
